

IAMA MISSION STATEMENT

IAMA is established for charitable and educational purposes, for assisting students in the field of medicine financially and for providing healthcare assistance to needy Iranians.

To achieve the above goals all Iranians and Iranian descents in the medical field in the US should unite and at the same time support each other and have a powerful voice.

To run organization in the most democratic way, the state chapters and sections were established (refer to IAMA bylaws). In this way they are independent to manage their internal affairs from the central administration.

Establish Continuous Medical Education each year during the annual meeting and publish IAMA Bulletin to fulfill its' educational obligation. The Public Awareness Seminars for Iranians here in the US is also sponsored by the Chapters to discuss different topics in the medical fields and at the same time help and solve their medical, dental and other healthcare needs.

To give humanitarian and professional assistance especially after disasters in Iran and US. After devastating earthquake in the City of BAM several years ago in southern Iran which took the lives of 28k people, IAMA pledged to build and run an advanced medical center to give free medical, dental care and counseling to the needy people in the area. IAMA is proud to announce that the Medical Center, consisting of a medical clinic with modern minor surgery room, counseling center and dental care facilities are working in cooperation with the Bam University Medical School.

Please join your organization, IAMA to promote the above goals and help each other.
